Preface

Since 1998 SUPPORT is rigorously works for sustainable rural development which strengthens the community as a whole and also helps to prosper the nation economics. SUPPORT has continuously maintained its effort to address the issues pertaining to holistic development. SUPPORT always put much strength into agricultural development and resource management through a set of projects and programmes.

Jharkhand is rich in natural as well as human resource but people as well as area have not been developed as per expectations due to different grass root reasons. Jharkhand gets 1200-1300 mm annual rainfall but always face problems of drought. These problems have been compounded at various levels & due to lack of appropriate plan of sustainable development initiatives. So SUPPORT addressed those issues since more than two decades and involved in developmental work and natural resource management work which gives nation a better shape in socially and economically.

Currently SUPPORT reached at 10 districts in Jharkhand in the areas of Livelihood promotion, Education, Health, community awareness generation, skill development, Financial literacy, Natural Resource management, women empowerment and other social development issues. To create opportunities and Service to the deprived sections of the society is the prime concern of the organization.

Village & community level institutions have been formed and strengthened which are responsible for managing development interventions with ensuring participation of concerned stakeholders. With the impetus from previous year SUPPORT has carried forward the previous works along with new projects in major sectors that the organization has been engaged in. In Natural Resource Management Program, the organization has focused integrated watershed project in Mandu, and Petarbar, PIP, MKSP TDF wadi and E-SHAKTI Program which is a focus initiative of NABARD. In following pages we have put up an effort to capture these wonderful cases of transforming Rural India . Help us to connect the dots leaving no one behind.

From Secretary's Desk

Here I feel very much pleased to present the 22nd Annual report of SUPPORT for the year 2019-20. At first I would like to thank our stake holders, team Members and program participants including grass root volunteers, farmers, women, youth, WSHGs and CRPs who have made this possible. Like past years this year also the organisation's efforts were centralized towards the uplift of target community and society. I would like to present some experience and achievements through this brief Annual report of 2019-20. Also I will be happy to take some feedback which will help to make our work better in future.

The 22nd Annual report reflects the output and achievements of our commitment towards our organizational Goal. Like previous years, we have implemented child education program for care and mainstreaming with education system, skill and capacity building, execution of farm and non-farm activities, livelihood promotion, Community health, and Sanitation.

During this year we continue our efforts for excellence and integrating scientific approach to address the social and economic challenges. We tried to ensure irrigation facilities in the project village's through constructing water harvesting structures under climate proofing project. We provided skill training to the identified needy youths, strengthened Farmers Producer Company, implementation of TDF-WADI project and initiated to develop agriculture cluster at Jaldega block of Simdega District and Cultivation of banana with adopting scientific methods at Bandgaon block of West Singhbhum.

As I think No work can be successfully done without the cordial efforts of our staff, volunteers, and management team for which I am highly grateful to them. I would like to thank all donors and supporters like NABARD, CInI, Tata Trust, Jharkhand State Watershed Mission, Jharkhand Tribal Development Society, District Administration and officials along with other well-wisher's for their valuable support which we have received and expect to get in future also.

Secretary

SUPPORT

Vision

Establish an educated, egalitarian and socially just society based on the values of equality, fraternity and mutual assistance.

Mission

The mission of SUPPORT is to organize and empower the marginalized sections of the society through self-reliant initiatives and to enable them to conduct their own economic, social, educational and political affairs in an ethical and sustainable manner.

SUPPORT firmly believes in the potential and capabilities of the marginalized section and endeavours to work with them to realize and utilize their potential for holistic and integrated development.

Objectives of the Organization

- To empower the people through awareness creation and establish the spirit of confidence & self-reliant attitude through people's organization.
- To enable people to become self-reliant, socially and economically, by integration of their knowledge, skills and optimum utilization of available resources.
- To promote sustainable development in the community and CBOs in an integrated manner

Guiding Principles

The organization follows the set of core principles which guides its work with the communities which are: - Equity, Justice, Peace, Fraternity and Secularism. SUPPORT believes in collective wisdom of people to come up with best possible solutions. The organization primarily works to enhance the role of Panchayati Raj Institutions by enhancing their efficiency and capacity. 'SUPPORT' tries to alleviate the socio economic factors that make people poor and destitute through a set of well designed programs ensuring potential and capacity of local communities to build their livelihoods across 9 districts of Jharkhand. 'SUPPORT' has taken the initiative to build infrastructure based on local conditions and prepare them to overcome various challenges and build conscious local communities who promote brotherhood and moral values.

Present Key Programs

- Promotion and Strengthening off Women Self-helpgroups, and Joint Liability groups
- Livelihood Promotion among Rural and Tribal community.
- Sustainable Agriculture Promotion through improved agriculture practice.
- Livestock development and promotion.
- Integrated Watershed and climate proofing Management
- Horticulture Promotion Including TDF Wadi
- Community Health awareness program
- Capacity building, Training Research & development.
- Promoting Farmers Clubs and Farmers producers' organizations (FPO)
- Entrepreneurship Development training program
- MGNREGA-NRLM Cluster Facilitation Team
- Financial inclusion program
- Knowledge and Research Management

Different Activities and Programmes

LAKHPATI KISAN- SMART VILLAGE: Mission 2020

This Project commenced in Churchu block in the year 2015 with view to mobilize community people collectively so that they can be a part of developmental initiatives related to their livelihood's security. Through the mobilization done by SUPPORT & CInI have developed a women federation. Subsequently, the working style as well as the structure of federation changed since in the year 2018 when federation got registered under the Companies Act, 2013 and turned into an FPC namely Churchu Nari Urja Farmers Producers Company.

SUPPORT & CInI -Tata Trusts have initiated remarkable efforts towards sustainable agriculture, non-agriculture livelihood, livestock & health among farmers, men, women, children, and traditional entrepreneur including 41 villages of Churchu & 10 Villages of Dadi Block.

PROJECT – AT A GLANCE

Block	Churchu And Dadi

10.	Self Help Groups	281	147	428

INNOVATION ADOPTED

In this FY- 2019-2020, the major innovations adopted are as follows: -

1. The 3500 progressive farmers have been registered in smart-farm app which has linked agricultural activities with smart phones which gives a platform to ensure their Package of Practices timely and allow them to get alerts in case of emergency.
2. Solar irrigation system with drip mulching technology have been implemented in 5 sites in 5 different villages which provides Remote Monitoring System to farmers.
3. The program has also established one cold storage entrepreneur which is accessible to farmers and help in further marketing.
4. Training of artificial insemination of goats have been provided to livestock farmers and same is implemented in field on demo basis.
5. 13 BOD didis and 19 agricultural LRPs are facilitated with smart phones to continue their activities technically.
6. Battery operated pruner machine is provided to Lac LRPs which has simplified the pruning of lac trees
7. 100% soilless saplings interventions in agriculture of HHS in Churchu and new intervention in Dadi Block.
8. 112 acre 342 H/Hs agriculture with new advance technology of Drip& mulching.
9. The FPC has conducted its Annual General Meeting on 14.02.2020 at Churchu Maidan.

Livelihood and Enterprise Development Programme

Livelihood and Enterprise Development Program (LEDP) was initiated by NABARD in December 2015 at National level with an objective to envisage conduct of livelihood promotion programs. There is provision for intensive training for skill building, refresher training, backward-forward linkages, and handholding support to entrepreneurs.

Organization has been implementing LEDP with 300 members of 60 SHGs located in Mandu and Dadi block of Ramgarh and Hazaribagh districts to strengthen Lac and vegetable cultivation. Common Interest Groups are trained through a combination of classroom and on farm course curriculum leading to establishment of demonstration plots. Farming Clusters are promoted as tool of enterprise development.

With LEDP local communities were able to improve their income with lac cultivation and processing. It increased awareness among members regarding variety of seeds, duration of crop etc. Credit linkage of Group. LEDP help us setting a platform to run the business through transparent norms and operational procedures.

Major Activity conducted from April 2019 to March 2020	
1	Half yearly Board Meeting organized at all 4 FPO formed by SUPPORT
2	Annual Buyer sellers meet organized at each FPO Level
3	Participation in training programs organized by other agencies for skill enhancement
4	Initiating Collective Marketing of fruits, vegetables, fisheries, and lac
5	Organizing PMIC meeting of each FPOs as per schedule time
6	Exposure visit for FPO members
7	Introducing improved technicality& farming processes
8	Enrollment of newfarmers in FPO
9	Initiating new registration under company
10	Regular support and guide by CEO and PIA-SUPPORT

NRLM –CFT-MGNREGA

NRLM – MGNREGS CFT convergence strategies project aims to strengthen planning and implementation of MGNREGA through regular handholding support to community and MGNREGS activities by deploying the Cluster Facilitation Team (CFT) at Panchayet level. SUPPORT has implemented CFT program in 365 villages in Hazaribagh, Ramgarh & Koderma district of Jharkhand through mobilizing SHG collectives and Gram Panchayats. Program was being executed in 5 blocks namely Churchu, Dadi, Mandu, Satgawan, and Domchanch. Total 43203 households were covered under this program. Project ended in the month of June 2019.

SUPPORT facilitated CFT-MGNREGA through Awareness Rallies, Coordination committee meeting and “Rozgar Diwas” celebration. Mates are trained in livelihood and Natural Resource Management. Through this initiative we help people raise plantation and develop more than 50 Vermi compost units, 150 cattle sheds, and 150 goat rearing units during April – June 2019 as per report of Block level MGNREGA officials.

Natural Resource Development

Deliverables	Numbers Speak
Dobha construction	105
BIG Pond construction	15
Trench Cum Bund in hac	70
Irrigation Well	109
Pig Shed constructed	15
Poultry Shed constructed	141
Land leveling in acres	178
Nadep construction	25

Integrated Watershed Management Program (IWMP) with the support of Rural Development Department , Government of Jharkhand

We executed the program with 5166 households in 35 villages of Barkatha block in Hazaribagh district during the year. We completed PCR and submitted to dept. of Features of a watershed that we seek to manage includes irrigation, drainage, Land bunding, Plantation work, Well renovation, Tailoring training, Promotion of SRI techniques, Storm water runoff, Water rights,

Food security, and the overall planning and utilisation of watersheds areas. This project is incorporated with “Prime Minister Krishi Sinchai Yojana”. Also this programme played a crucial role in “Jalshakti Abhiyan” All 10 micro watershed committees were regularly facilitated to better use of assets created in the project. Effects are already visible in project areas. For the first time the plot of land saw cultivation of mustered, wheat, and other green vegetables with promoting organic farming practices.

Climate proofing “Chumba Nala” Watershed project

- Awareness creation and dissemination of information, documentation of best/traditional practices / success stories were collected from field.
- Knowledge sharing workshops for all stakeholders, on topics / areas relevant to Climate Change, including exposure visits were conducted.
- Orientation Training and Capacity Building of stakeholders were organized at Local level as well as state level.
- Networking and collaboration with similar national and international organizations.
- Vulnerability assessment was done.
- Preparation of sustainability reports.
- Policy advocacy for adaptation measures were done. Watershed committee made convergence with other govt program in the target areas of watershed.
- Addressing and assessing Gender issues, environment issue, organic agriculture practices were addressed.
- Other activities that directly or indirectly lead to promotion of climate resilience in 3 villages namely badka chumba, chhotka chumba and Manjhla chumba .
- Establishment of solar irrigation system, azola tank, irrigation ponds, plantation, fodder bank, and promotion of organic farming were done in the project.

Agriculture Promotion, women economic empowerment and employment generation:

MKSP project

MKSP project has been continued in the 2019-2020 with no cost extension basis with a fulfilling the objectives to improve the status of ‘Women in Agriculture’, and to enhance the opportunities for their empowerment. The core agenda of the project was to nurture sustainable institutions around agriculture and allied activities, develop sector and geography-specific best package of practices and create a wide pool of community resource persons for promotion of sustainable agriculture practices. 3000 small & marginal women farmers covering to 300 SHGs who were promoted improved sustainable farming system resulting in achievement of year-round food security, nutrition security and sustainable income enhancement.

Major activities conducted

- Use of social capital of community-based institutions by strengthening of SHG/VO/Federation
- Development of community level Farmers Field School (FFS) as demonstration platform
- Extensive convergence and linkages with PRIs and government programs specifically MGNREGA
- Strengthening market linkage for marketing of inputs and agricultural produce
- Promoting livestock production, processing of NTFP and value addition & agro-processing unit
- Incremental increase in allied activities.

Cumulative achievements

- Formation of Annapurna Model – 59
- Formation of Nutrition Garden – 1135
- Formation of 36 x 36 Model – 521
- Coverage of Potato Value chain – 3000 farmers
- Coverage of Pigeon Pea (Arhar) – 1500 farmers
- Establishment of Daal Mill Processing unit at Jobla, Mandu – 01
- Establishment of Organic Outlet at Mandu – 01
- Establishment of Chili Processing unit at Bongabaar, Mandu – 01
- Establishment of Custom Hiring Center (CHC) at Bongabaar & Nawadih – 02
- Establishment of Farmer's Producer Company at Mandu – 01

program impact:

- Enhancement in household income of 85% of women farmers by Rs. 25,000 – 30,000 per farmers per annum.
- Around 750 acres of additional land brought under cultivation
- Cropping intensity/ gross cropped area increased by 30% above and over baseline
- Productivity of major crop increased by 30%
- Production and use of quality compost increase by 50%
- Around 85% women farmers started using bio-fertilizers and microbial agents in cultivation
- Adoption of improved & sustainable farming practices by more than 60% of women farmers
- At least 70% of women farmers adopted drudgery reduction tools and techniques
- Around 25% higher price realization for agriculture produce cultivated through NPM practice
- Establishment of community managed agriculture extension system comprising well trained 5 paraprofessionals and 25 CRPs.
- Development one 7 SHG federations and 5 producers 'groups
- Around 30% enhancement of participation of women in gram Sabha and PRI
- Around 25% women farmers adopt integrated farming system for better utilization of resources

Case Studies

Case Study: 1

A positive change in Radha devi's life

Radha Devi, a widow of late Ram Swaroop Ram, lives in the village Bonga bar, situated under Mandu Block in Ramgarh district,. After death of her husband, the whole responsibilities of rearing her children felled upon her. She was very much depressed, but, anyhow, she managed herself. In the year 2006, She joined in SHG namely, Santoshi Mahila Vikas Sangh and she took loan of Rs 20,000/- to run a grocery shop.

In the year 2015, one VO (village organization) Tutijharna Gram Sangathan was formed in her village with the help of MKSP. She joined that VO and become a member. She enrolled training on tailoring through the VO under MKSP allied activity and after that training, she got loan of Rs 60,000, from which she bought, stitching machine, picco machine and clothes. She started stitching work from which she can earn approx. Rs 5500/- . Per month. She also collects clothes from outside the village for stitching. Apart from the stitching, she is also providing training on tailoring to other interested girls/women.

During this Corona attack in India, she has started to prepare and sell face mask. This tailoring profession becomes a lifeline for her whole family, due to which, she is now able to fulfil her family's basic requirements for living a happy life.

Case Study: 2

Parwati – A Change Maker

This is the success story of Parwati Devi, who lives in the village Bongabar, Block Mandu of Ramgarh district. She lives with her husband-Chandu Ravidas. She has two children and mother in law. There are 5 members in her family. Her husband works as a labourer in the village itself.

Parwati Devi is also a member of SHG, named Vaishno Mahila Vikas Sangh. She joined on 15.07.2012. She took loan from her SHG amounting Rs 6000/- to start goat rearing, to earn for her family. She bought 2 Goats (one he goat and one she goat) from that money. From that, she gets 6 goats in a year. This helps in earning few incomes for her family.

In the year 2018, under MKSP project, she received training on Nutrition Garden. Behind her house, there was some empty space besides her well. They were not growing anything there. So, after receiving training on Nutrition garden, she decided to use that empty space to make nutrition garden for her family. She made boundary with the help of old sarees and make beds and sowed seed as per the instructions given during the training. From that small piece of land, now she is getting different types of fresh and green vegetables for her whole family and for the whole year. Now she does not require buying vegetables from the market and is also keeping her children healthy.

Parwati Devi is very happy with her nutrition garden and is also encouraging other women to make nutrition garden behind their houses to maintain good health of the whole family members, especially the children and the pregnant/lactating mother, to save them from being malnourished.

Her annual family income has also increased up to Rs 50,000/- from nutrition garden and goat rearing which helped her to live a happy and healthy life.

E-Shakti (Digitisation of SHG) in Hazaribagh

E-Shakti has been launched in Hazaribagh district by NABARD in the year 2016. It aims at digitisation of data of 4500 SHGs in Sixteen (16) blocks for enhancing the ease of doing business with SHGs. This is also in line with Government of India's "Digital India" mission. The USP of the E-Shakti project is 'one-click' availability of the social and financial information of the Self-Help Groups maintaining Saving Bank accounts. The project has a dedicated website <https://eshakti.nabard.org>, in which informations of the SHGs are uploaded monthly through an 'App', loaded on android based Mobile by (145) animators as engaged with Thirty (30) SHGs each. The whole ecosystem is designed to capture all types of financial transactions like Member's Saving, Internal Loan Disbursement/Payment, Bank transactions in terms of Savings/Loan and non-financial operations viz. meeting, decisions etc. at SHG level and store the same in digital form on

E-Shakti portal. SMS alerts are sent to members on their savings and loan outstanding. Every month a financial statement in Hindi/English is being provided to each digitised SHGs. SUPPORT has a facility of MIS reports on groups are generated and progress can be tracked on a near time basis through the nabardeshakti.org portal provided to us.

Features of E-Shakti

- Have credit history of SHG members
- E-book keeping of financial transactions and non-financial operations for the SHGs
- Transparency at each level.

- SMS alerts to all SHG members on transactions
- Generation of monthly balance sheets for each SHG and providing a printed copy to them
- System generated loan applications
- Access control by User ID and Password for Banks
- Customized menu depending on User Access
- Dynamic grading of SHGs
- System generated Loan Applications for the bankers
- Credit history of SHG members
- SHG Savings reports
- Branch wise list of non-credit linked SHGs for easy monitoring by controlling offices
- Standardization of reports based on the requirements of Banks and other agencies
- Access the system generated loan applications
- Post sanction of loans, performance of SHGs can be monitor through various MIS reports.

Blocks coverage

1. Sadar, 2. Barkatha, 3. Keredari, 4. Katamsandi, 5. Dadi, 6. Barkagaon, 7. chalkusha, 8. Barhi, 9. Bishnugarh and 10. Tatijharia, 11. Chouparan, 12. Ichak, 13. Daru, 14. Katkamdag, 15. Padama, 16. Churchu

Activities conducted:

Group Leader Training Program (GLTP) held at Barkatha, Churchu and Katkamsandi blocks in which a group consisting of 50 SHG members participated in each GLTP. In this training program the training is given about entrepreneurship of animal husbandry like Goatery, Piggery, Backyard poultry, Agriculture etc.

Distribution of Achievement Awards

Project Implementation Monitoring Committee meeting held at DVC office in which DDM NABARD, LDM, RM GRGB, Secretary -SUPPORT Given achievement awards to different SHG'S and Animators in form of NABARD printed logo carry bags , Register, Letter of Appreciation Rewards.

Key Achievements: -

1. 40 women from 11SHGs are engaged in Candle and soap manufacturing and marketing.
2. More than 12,000 women are trading with seasonal vegetables.
3. 04 SHG are running PDS
4. 12 trainings have been provided to Animators during the year 2019-20.

Credit Intensification Drive through Village Level Program in Hazaribagh

As on 11.02.2020 a review meeting of E-Shakti Phase I, II & III has been held at Jharkhand Regional Office of NABRAD, Ranchi. During the meeting it was decided to improve the progress of having credit facilities to the digitized SHGs in Jharkhand. So, some criteria have been deployed to gear up the Credit Intensification Drive through conducting Village Level Program which is mentioned below -

1. Preparation of final list of SHGs to be credit linked along with proper data sanitization, KYC, and other documentation,
2. Generation of loan application through E-SHAKTI Portal with the consent of SHGs,
3. Follow up with concerned bank branches for credit linkage of SHGs,
4. Generation of loan application through E-SHAKTI Portal with the consent of SHGs,
5. Updating of backlog credit linkage through Mobile App on Portal.
6. Organizing Village Level Program for Credit Intensification Drive in accordance with bank branches and SHGs,
7. Updating of new Credit Linkage through Mobile App on Portal

In view of the above stated objectives, Hazaribagh has been assigned 64 with 120 SHG's credit linkages.

A. Total No. of VLP conducted – 36

B. Total No. of Bank Loan application form generate – 95

E-SHAKTI (Digitisation of SHG) – Giridih District

E-Shakti, a project for Digitisation of SHGs has been launched in Giridih district by NABARD in the year 2018. It aims to digitize the data of 1,800 SHGs in 10 blocks out of total 13 for enhancing the ease of doing business with SHGs. 60 animators are engaged with 30 SHGs each. The whole ecosystem is designed to capture all types of financial transactions like Member's Saving, Internal Loan Disbursement/Payment, Bank Transactions in terms of Savings/Loan and non-financial operations viz. meeting, decisions etc. at SHG level and store the same in digital form on E-Shakti portal. SMS alerts are sent to members on their savings and loan outstanding. Every month a financial statement in Hindi/English is being provided to each digitised SHGs.

Blocks coverage: - 1. Giridih, 2. Gandey, 3. Jamua, 4. Deori, 5. Tisri, 6. Gawan, 7. Dhanwar, 8. Suriya, 9. Bagodar and 10. Dumri

302 out of 358 panchayats and 2,097 out of 2,772 villages were covered in Giridih district

Description	Nos.	Description	INR
SHG Digitized	1,800	Cumulative Savings of SHGs	09,87,17,807.00
Total Nos. of SHG Members	20,518	Outstanding Internal Loan	02,30,60,265.00

Key Achievements: ~

1. 32 women from 21 SHGs are engaged in tailoring business
2. More than 700 women are trading with seasonal vegetables.
3. 09 trainings have been provided to Animators during the year 2019-20.

Credit Intensification Drive through Village Level Programme in Ramgarh

As on 11.02.2020 a review meeting of E-SHAKTI Phase I, II & III has been held at Jharkhand Regional Office of NABARD, Ranchi. During the meeting it has been found that there is a very slow progress of having credit facilities to the digitized SHGs in Jharkhand. So, some criteria have been deployed to gear up the Credit Intensification Drive through conducting Village Level Program. Ramgarh district has assigned 36 VLPs for a no. of 50 SHG's credit linkages.

A list of 50 SHGs has been finalized.

Total No. of VLP conducted – 18

Total No. of Bank Loan application form generate – 28

Promotion of Education

SUPPORT Public School, which is located at Takaha Tola in Village Govindpur, situated under Mandu-Block in Ramgarh district. The school is presently managed by SUPPORT. But now there is separate board of management unit. Present student strength of 300. The school follows CBSE curriculum. The school compound is well equipped with Children Park, Playground, Auditorium, Transport Facility and Washrooms. SUPPORT is looking forward to an asset improvement agreement to work together on a Smart Education Project to improve education infrastructure and learning ability of students attending the school. At present there are 20 staff including teaching and non-teaching who are working with full potential and dedication.

Community Health and Sanitation:

This project is being supported by CInI-Tata Trust. Main aim of this project is capacity building initiatives in the region towards use of toilets to achieve ODF sustainability, ensuring safe drinking water and maintenance of proper hygiene and also creating awareness among **1500 Adolescents & women** in the community on the Menstrual Hygiene Management through various MHM training program & other activities.

Under ODF sustainability program, various activities has been conducted during the year, like, organizing Community Led Total Sanitation (CLTS) program for sensitizing the community for toilet usability, proper maintenance and renovation of toilets in community at particular and government schools, safe drinking water through house-hold level solution and behaviour change practices through village events like Safai Abhiyan, Day celebration-World Toilet Day, ODF celebration, etc, Meetings and School WASH program.

Apart from the ODF sustainability, the project also aims towards Menstrual Hygiene Management. MHM program has been conducted in 21 villages of 7 Panchayats under Churchu Block, Hazaribag. Under this, various activities has been conducted, like, Module based MHM training program for Adolescents and women in the community and for the school going adolescent girls, organizing cloth pad stitching workshop, MHM Mela, Day celebration, such as period day celebration , Women's Day Celebration, etc.

Major Achievements: under ODF:

- Toilet usability in the area has been increased from 66% to 83%
- Construction of 15 soak pits& 15 solid waste dustbin (cemented)installation
- Construction of 4 Common Bathrooms
- 11 Self-motivated toilet construction
- LOB (left out beneficiaries) list of 177 beneficiaries entered in MIS of DWSM-Hazaribag as convergence which is a remarkable achievement
- Inauguration of Solar Based Water Tank for providing safe drinking water to 65 households of Kajri Village, Bahera Panchayat of Churchu block, Hazaribag
- Total 112 water filter (TATA SWACHH) has been provided among the community in Churchu block

Major Achievements: under MHM:

- Providing MHM training to 1845 adolescents& women of 21 villages, 7 Panchayat, churchu block, Hazaribag
- Organized 14 cloth pad stitching workshop with 287 women & adolescents.
- Organized one MHM Mela, at Charhi, on 21.12.2019, in which approx. 500 participants had participated, and 34 women got treatment for menstruation related issues.
- 5 Matka incinerator installation at Massi Marshal High School and Kasturba Gandhi Awasiya Balika Vidyalay, Charhi.
- One Electric incinerator installation done at Massi Marshal High School,Charhi.

Case Study -3

Case Study of Sabina Hembrom

Village Lara, Tola Balidih is 30 km away from the District Hazaribag headquarter. This tola is surrounded by forest and is tribal populated area. The residents are mostly daily wage earners. In this village, Sabina, age 24 years, resides with her husband –Sukhdeo Tudu aged 28 years old and two small boy children. One is of 6 years old and another is 3 years old. Her husband is a daily wage earner, who goes to Hazaribag by bicycle in search of work, through which he earns Rs 300 per day. Sometimes, he did not get any work and returned with empty hands. He gets 20 kg of Rice from PDS, through which he can get some grains to fulfil the needs of his family. He got a house from the government housing scheme and must go to nearby river at their village to take bath. They use well water for drinking. Sabina Hembrom along with her family go outside for defecation. In case of any guest come at their house, must go to the forest for defecation, which Sukhdeo did not like, and feel ashamed of that. He felt guilty of himself, for not being able to construct toilet at his home. His wife faced many problems for defecation. Sabina must wake up early in the morning, during dark, so that, no one can see her. But the situation become worst if she infects in diarrhea or dysentery. At that time she was also not able to share her problems with her husband.

After SUPPORT intervention at Balidih, they discussed with the villagers, in which, it was found that, out of 55 households, 40toilets have been constructed by the government, but no one was functional. All waste materials were put there. The villagers stated various reasons, like, lack of water, defunct toilet, pipe broken, no lid, blockage, etc for not using those toilets. After understanding their situation, SUPPORT conducted frequent meetings, in which, villagers were told to repair the toilets, which can get repaired. And for those, who do not have toilet, they were told to construct it, but no one was ready.

After conducting various meetings, few HHs get ready to make it functional. But, few HHs do not have any toilet, so, for those, SUPPORT do liaison with government department, and submitted list of such 11 HHs, who do not have any toilet. But it took time to get toilet from the government. By that time, SUPPORT staffs motivated them to start toilet construction work at their own cost, for which, they were ready to do a part of their contribution.

Sabina Hembrom was one of such left out beneficiary (LOB), who started first to construct toilet on her own cost. But, again, due to lack of money to purchase cement, rod, etc. the work remain incomplete. Meanwhile, SUPPORT came forward to help them in purchasing, cement, etc, so that, the construction work gets completed. Moreover, she also decided to build one bathroom along with the toilet, so that, she did not need to take bath in open space. Now, her toilet construction has been completed and being used by her whole family. She is very happy today as she did not need to wake up early in the dark for defecation.

She conveys her gratitude to SUPPORT who helped her in building her toilet at her house, through which, now, she can live a healthy life.

MHM – A platform to change

After the implementation of ODF/MHM project, the staffs of SUPPORT informed the same to Kavita and asked her interest whether she could cope up with this theme of Menstrual Hygiene Management in her village or not. Initially she took a day to convince and later she accepted the proposal to continue the same. She was quite excited to attend the TOT which was to be held at Ranchi but unfortunately due to serious health issues she was not able to attend the TOT.

This has also lowered her confidence to continue the training in the village level. Due to her extreme concern towards this theme, she regularly attended the training given by MHM coordinators and practiced it now and then. In a passage of 2 weeks, she has become a full-fledged trainer and started contacting the SHG Didis, Schools and adolescents group of her area.

In first phase of her training of Module 1, MHM coordinators accompanied in the training and gave the feedback for her proper grooming. The same process was also followed for other 2 modules and accordingly she became a trained MHM village volunteer in her area. Now she is continuously indulged in training the localities women of her area and has shown a remarkable change where Didis and adolescent school students are enough capable to speak up their menstrual related issues.

Tribal development: JTCLP Dumka

The JTCLP program seeks to develop and implement a replicable model that ensures household food security and improves livelihood opportunities and overall quality of life of the Tribal population based on sustainable and equitable use of natural resources. JTCLP along with “SUPPORT” have developed a unique Cluster-based approach for Rabi crop to agriculture extension in the year 2019 in total 07 villages of Masaliya Block with guidance from a team of experts. SUPPORT holds frequent progressive farmers meetings with guidance from a team of experts of JTCLP. JTCLP runs seasonally adapted training programs, demonstration of new techniques. The most significant achievements, have come in the cultivation of high value crop. By following our recommendation, farmers now earn incomes that are transforming their livelihood.

The program aims:

- Empowering the Tribal grassroots’ associations and user groups including women and other marginal groups.
- Promoting activities, which generate sustainable increases in production and productivity of land and water resources
- Generating sources of income outside agriculture, particularly for landless.

Major Services that provided to Farmers by JTCLP are:

- Supply of agri- inputs
- Knowledge sharing with farmers related to Rabi crop farming
- Linkage with Progressive farmers to Other Institution like AATMA
- Social and technical attachment with farmers.

Last Rabi crop season UNDER JTCLP –JTCLP promote sustainable agriculture by helping resource-poor farmers apply improved farming technologies. Approx. 102 small holders have increased their farm productivity and as a result shifted from subsistence to commercial farming.

Success Story -01

Better Income with Barbatti

Eradicating the role of money lender by providing support amount to beneficiary for cleaning of bushes, purchasing of seed and plucking of barbatti by J.T.D.S. helped to increase the area and seed for plantation of PVTGs. In the year 2019 a PVTG Nandlal Pujhar, beneficiary of Taldangal village, situated under Kolarkonda Panchayat of Masaliya Block also started Barbatti Cultivation activity for better profit than earlier. He increased the area and quantity of seed as compared to previous year and got benefitted more. After production, he sold the barbatti approx. 452 kg in the local market@ Rs. 52/- kg with profit of amount Rs. 23,504/- adding up to his source of income for better livelihood. He is very much thankful for support provided by JTDS as well as the FNGO Team for their continuous support from the beginning of seeding till marketing the product.

Success Story -02

This case study explores about Ruplal Hansada, Son of Sri Pane Hansada Age- approx. 41 Years a resident of Datiyarpur Village under Hathiya Pathar Panchayat, Masaliya Block, Dumka. Ruplal Hansada lives at JOJO Tola with his wife and their 3 children. It was very difficult for him to feed his whole family from his own production. He was able to generate 10 months food security from his own cultivation and used to go as daily wage labor in the nearby town with her wife to earn for their livelihood. During the season of low demand for labor in the market they faced a huge financial problem and borrowed money from money lender at high interest rate.

After proper intervention by the members of SUPPORT, they pointed out some issues. Though Mr. Ruplal Hansda owns a small amount of cultivable land but his agricultural production was very poor due to lack of knowledge of scientific agricultural technologies. Due to this, he did not utilise his agricultural field for whole year. The same situation was happened in animal husbandry. Although he possessed some animals like goats, oxen and hen. But here also due to lack of knowledge about animal husbandry he did not utilize these animals to improve the condition of his poor economy. The SUPPORT members also realised that Mr. Ruplal and his family members had no practice to use pulses and vegetables in their daily meals. As a result they are suffered from Anaemia, weakness and other common disease in more often.

After intervention of JTEL project, JTDS provided 6 goats with shed and also provided goat rearing training. Also Mr. Ruplal was included in "Pasu Sakhi" project. Now this guidance helps him to earn 12000 rupees per year. After getting proper training on modern technologies of agriculture, now he earns Rs 1800 for growing zaid (Summer crop), Rs 2600 for growing Rabi crop, Rs 3100 for growing paddy, Rs 2900 for growing maze. Also he earns Rs. 900 from vegetable cultivation. His wife is now member of UPAL BAHU SHG in her village and she also earns Rs. 900 from papaya cultivation. Besides that now Mr. Ruplal can also secure food for his family for whole year due to these cultivation.

Now his family can intake fresh vegetables in their daily meals which helps them to get better nutrition and immunity. Now Mr. Ruplal can afford the education cost of his children and give them to better life.

VAN BANDHU KALYAN YOJANA:

The Ministry of Tribal Affairs, Government of India launched Van Bandhu Kalyan Yojana (VKY) for the welfare of weaker tribal community. Comprehensive development of 81 tribal families was done with focusing on material, equipment, technical and financial support. We tried to focus on bridging the economic and other gaps among the targeted famers. Under the scheme includes safe drinking water, improved agriculture practices and creating irrigation facilities, electricity, education coaching support, skill development, sports and protection of their cultural heritage, livelihood, health and sanitation activities were finalized and concluded the report during the year. Follow up of Kitchen garden, livestock management, SHG strengthening and agriculture-based activities were also done during the year at Korwa village in Arki Block in Khunti district with support from MESO Khunti District.

TDF WADI Churchu, Project- I & II :

For promoting sustainable participatory livelihood program (“Wadi” model and “beyond Wadi approaches”) which aims at economic uplift through sustainable agriculture, social empowerment, improvement in quality of life including health and women development, in tribal areas through wadi project supported by NABARD has been initiating. Beyond Wadi approaches we include livelihoods based on traditional agro and forest-based activities and organic cultivation. We take up promotional efforts such as capacity building, exposure visits, training, sensitization programs etc. for the benefit of communities. We support promotional activities for micro-credit, promotion of SHGs, Income Generating Activities for marginal farmers in ST communities and other weaker sections of the community for livelihood development program. To support activities related to development of tribal market, processing and marketing of products manufactured by tribal families/ communities we are promoting and strengthening Farmers producers’ organizations in the wadi area.

SUPPORT is implementing 2 TDF Wadi Project in Churchu block of Hazaribag district. The program intends to take up horticulture development

SN.	Particulars	TDF Wadi Project I	TDF Wadi Project II	Cumulative Achievement

activities in 694Acres, Soil& Moisture conservation activities in 543 acres and water resource development in 613 acres. Summary of activities taken up in current financial year and cumulative statistics is provided blow:

ITDA Chaibasa and Simdega:

With the support of ITDA West Singhbhum scientific cultivation of banana were started at Otari panchayat of Bandgaon block in west Singhbhum. Two villages namely Bastam pada and Jomro -Putusai were covered under this project. Total 18 farmers covering 19 Acres of land were taken for cultivation. Drip irrigation system, plantation activity, beneficiary group formation was done in the last month of March.

With the support of ITDA Simdega Vegetable cluster development project were started at Lamdega panchayat of Jaldega block, in Simdega district. 50 acres of land were covered under this project. Total 50 tribal farmers were identified for developing agriculture and vegetable cluster.

Institution Building

Farmers Producers Organizations (FPO)

FPO, formed by a group of farm producers, which is a registered body with producers as shareholders. It deals with business activities related to the farm produce and it works for the benefit of the member producers. CEO is managing the FPO,

Under various programs, 5 Farmer Producer Organizations promoted by SUPPORT are steadily contributing to Food Security, employment generation and Local area economy in three districts of Jharkhand. Capacity building, supply chain management and market development activities by SUPPORT created a sense of trust among the FPOs facilitating faster & hassle-free transaction. The program is supported by NABARD, and CInI-tata trust.

रही हैं कोयलांचल की महिलाएं

पांच एकड़ में लगायी हैं अरहर

धनेश्वर प्रसाद / प्रदीप कुमार > कुजु

उपस्थित जीएच, अधिकारी व मजदूर नेता

गिरी (हजारियांग): कोयला उद्योग में दशवर्षी इंडस्ट्रियल की लेकर अरराडा महाप्रबंधक अजय सिंह ने सोमवार को महाप्रबंधक कार्यालय में मजदूर प्रतिनिधियों के साथ बैठक की। अरराडा महाप्रबंधक ने मजदूर प्रतिनिधियों से देश हित में इंडस्ट्रियल नहीं करने की अपील की, कहा कि इंडस्ट्रियल से कोयला उद्योग ही नहीं, बल्कि देश का भी नुकसान होगा। इस पर श्रमिक नेताओं ने भी अपनी-अपनी बातें रखीं। श्रमिक नेताओं ने गिरी वार्डों के संदर्भ में अरराडा महाप्रबंधक से जानकारी ली। महाप्रबंधक ने कहा कि गिरी वार्डों

को बंद नहीं होने दिया जायेगा। गिरी वार्डों के जीएचों के लिए नौ करोड़ का प्रस्ताव यहां से सीसीएल मुख्यालय भेजा गया है। कार्य प्रगति पर है। वार्डों का जीएचों द्वारा कराया जायेगा। बैठक में अरराडा क्षेत्र के अधिकारी विमल कुमार, सुरी गुला, गिरिधर, परमवी चौधरी, एफे झा, पीओ कृष्ण मुरारी, दिलीप कुमार, एबीके सिंह, मजदूर नेता मिथिलेश सिंह, वैजनाथ मिश्री, कन्हैया सिंह, अरुण कुमार सिंह, बिजेंद्र प्रसाद, जमनेश्वर सिंह, सुशील कुमार सिन्हा, कमलवीर खान, मुस्ताफा, बिदेश्वरी सिंह, नानेश्वर महतो उपस्थित थे।

कांडगारी को नोटिस
रामगढ़: जिला प्रशासन द्वारा वैसे जन वितरण प्रणाली के कांड धारियों पर कांवाइंस प्रारंभ कर दी है, जो इसकी योग्यता नहीं रखते हैं। कांवाइंस के प्रथम चरण में जिला प्रशासन ने वैसे कांड धारियों को चिह्नित करना प्रारंभ कर दिया है, जो नौकरी पेशा हैं। इसी क्रम में जिला प्रशासन ने सीसीएल में नौकरी कर रहे चार कांड धारियों को नोटिस जारी किया है। जिन कांड धारियों को नोटिस जारी किया गया है, उसमें वितरपुर प्रखंड के ग्राम कोइहरा निवासी मालती देवी, पियारी देवी व शंकर महतो तथा धनुषाडोल निवासी रोहित मुंडा शामिल हैं।

अरहर की खेती का समय गाता

करीब 5 एकड़ में अरहर की खेती लगाये हुए हैं। जबकि महिलाओं द्वारा अपने-अपने खेतों में अलग-अलग क्यारों में कई तरह की फसलें लाहला रही हैं।

धान-आलू की फसल से हुआ है नुकसान

समूह की महिलाओं द्वारा श्री विधि के माध्यम से ने खेतों में धान की फसल लगायी गयी थी, लेकिन बेमौसम बरसात के कारण धान की फसल पूरी तरह बर्बाद हो गयी। अब जो आलू की फसल है, वह कुत्तों के कारण धुलसा रंग से चौपट हो गयी। ऐसी स्थिति में समूह की महिलाओं को भारी नुकसान पहुंचा है।

बारी में लगी है पौष्टिक सजियां

क्षेत्र की गर्भवती महिलाएं स्वस्थ रहे तथा उसका बच्चा कुपोषण से बचे, इसके लिए संस्था ने पौष्टिक सजियां उपजाने के लिए कई बीज उपलब्ध करा रखे हैं। इस दौरान समूह की महिलाएं अपने बारी में तयारी बनाकर अलग-अलग क्रमशः फरसबीन, चना, कलकतिया सीम, प्याज, टमाटर, लाल साग, धनिया आदि की फसलों की खेती कर रहे हैं।

बेहतर खेती के लिए मदद कर रहा है सपोर्ट संस्था

इस संबंध में सपोर्ट संस्था के कम्युनिटी रिसोर्सर्स (सीआरपी) बरमसिया करमा निवासी गीता देवी ने कहा कि गांव की महिलाएं बेरोजगार न हो और भविष्य में आत्मनिर्भर बनें, इसके लिए सपोर्ट संस्था ने उन्हें संगठित किया। साथ ही घर पर खाली बैटी महिलाओं को खेती-बारी से जोड़ने का कार्य किया। साथ ही संस्था महिलाओं के बीच समाय-समय पर बीज की व्यवस्था करने के साथ तकनीकी मदद भी प्रदान कर रहा है। उन्होंने कहा कि आज उनके नेतृत्व में गुलाब महिला विकास समिति, रानी महिला समिति, सहेली महिला समिति, दीपिका महिला समिति, सीतिका महिला समिति जैसे 18 समितियों के लोग सपोर्ट से जुड़कर खेती कार्य कर रहे हैं।

गारु में सोलर लैंप के साथ ग्रामीणों

200 ग्रामीणों के
