Strengthening Community Engagement through Field-Based Monitoring – IDP Project

A three-day field visit was successfully conducted across ten project villages under the IDP Project, funded by MCX India Ltd., with the objective of reviewing ongoing interventions and strengthening community engagement. The visit was led by Mr. Alok Kumar Singh, MCX Coordinator, along with Mr. B. S. Gupta, Secretary-SUPPORT, Mr. Abhishek Shankar, State Project Manager (SPM)-SUPPORT, and dedicated project team members.

During the field engagement, the team interacted with farmers and community members to review field-level progress, understand local challenges, and assess ongoing initiatives related to agriculture, livelihood enhancement, and community development.

This field engagement reflects the shared commitment of SUPPORT and MCX India Ltd. toward promoting sustainable rural livelihoods, enhancing community participation, and ensuring the effective implementation of development initiatives across project villages.

Strengthening Farmer Livelihoods through Market Linkages and Sustainable Irrigation – HRDP (P1010)

Under the Holistic Rural Development Programme (HRDP – P1010), field interactions were conducted with farmers focusing on black turmeric sample identification and market linkage opportunities. Samples are being prepared for forwarding to prospective consumers to explore better marketing channels and enhance income-generation opportunities for farmers.

In addition, a cluster visit to onion fields supported through solar-based Micro Lift Irrigation (MLI) systems was carried out to assess crop progress and promote sustainable irrigation practices. The use of solar-powered irrigation is contributing to efficient water management and supporting climate-resilient agriculture.

These integrated interventions are helping farmers strengthen market access, improve agricultural productivity, and adopt sustainable farming practices, thereby contributing to enhanced rural livelihoods and long-term agricultural sustainability.

Strengthening Community Leadership through District-Level Orientation Training

A two-day District-Level Orientation Training Program was successfully organized in Hazaribagh under the Common Ground Program by SUPPORT Institution. The initiative aimed to strengthen community engagement, enhance grassroots leadership, and promote collaborative approaches to local development challenges.

The training witnessed active participation from civil society organizations, community representatives, and development practitioners, creating a platform for dialogue and collective learning.

Through interactive sessions, group discussions, and experience-sharing exercises, participants gained deeper insights into key community issues and explored practical and sustainable solutions to address local challenges.

The program represents a significant step toward empowering communities, strengthening local governance systems, and fostering inclusive and sustainable development.

Celebrating Academic Excellence: 100% CBSE Board Results 2026 – Support Public School

Support Public School proudly celebrates a remarkable academic milestone with a 100% success rate in the CBSE Board Examinations 2026. This outstanding achievement reflects the dedication, perseverance, and academic excellence of the students, along with the unwavering commitment of teachers and continuous encouragement from parents.

The school community takes immense pride in the exceptional performance of its students, whose hard work and determination have brought recognition and honor to the institution.

Top Achievers:

- Anisha Gupta – 91.4% (1st Position)
- Azar Hayat – 89.6% (2nd Position)
- Several other students secured above 75%, demonstrating strong academic commitment and consistent effort.

This achievement stands as a testament to the school's commitment to quality education and holistic student development. Support Public School extends heartfelt congratulations to all successful students and wishes them continued success and a bright future ahead.

 A proud milestone inspiring excellence and lifelong learning.

Strengthening Livestock-Based Livelihoods through Veterinary Health Services – Gram Seva Project

A Veterinary Health Camp was successfully organized at Myle village under the Gram Seva Project, an initiative of SBI Foundation and implemented by SUPPORT, with the objective of promoting livestock health and strengthening rural livelihoods.

The camp offered a range of veterinary services, including animal health check-ups, treatment, vaccination, and awareness sessions on scientific livestock management practices. These services aimed to improve animal health, prevent diseases, and support better livestock productivity.

Farmers and livestock owners actively participated in the program and gained valuable knowledge on disease prevention, proper nutrition, and improved animal care practices. The interaction also encouraged the adoption of scientific livestock management methods to ensure healthier livestock and sustainable income generation.

The initiative reflects a continued commitment toward sustainable rural development by enhancing livestock-based livelihoods and supporting farming communities through accessible animal healthcare services.

Promoting Sustainable Agriculture through Natural Farming Practices – Bongabar Village

Under the FNSIE Project, supported by APF and implemented by SUPPORT, farmers in Bongabar village undertook Nimastra spray activities as part of ongoing efforts to encourage sustainable and environmentally responsible agricultural practices.

Nimastra, a natural bio-input prepared using locally available resources such as neem leaves, cow dung, and cow urine, is being adopted for effective pest management. The practice supports crop protection while preserving soil health and reducing dependency on chemical pesticides.

The initiative is helping farmers adopt low-cost and eco-friendly farming methods that contribute to improved soil fertility, healthier crop growth, and reduced cultivation expenses. By encouraging the use of organic and locally sourced inputs, the activity is strengthening environmentally sustainable agricultural systems.

Through regular field demonstrations and continuous technical support, farmers are gaining practical knowledge and confidence in adopting natural farming techniques, paving the way for healthier, productive, and climate-resilient agriculture.

This intervention reflects a strong commitment toward promoting sustainable livelihoods and environmentally conscious farming practices within rural communities.

As part of the HRDP (P1010) project, a field visit was conducted to the Net Shade sites to assess their utilization and engage with beneficiary farmers.

The Net Shade initiative is enabling farmers to cultivate vegetables such as cucumber, bottle gourd, and bitter gourd in a protected environment. This approach has significantly improved crop quality and productivity while minimizing the impact of unfavorable weather conditions.

During the visit, farmers were also provided guidance on improved cultivation practices, advanced farming techniques, and sustainable agricultural methods to support higher yields and long-term farm resilience.

The initiative reflects HRDP's continued commitment to promoting climate-resilient agriculture, strengthening livelihoods, and encouraging sustainable farming practices among rural communities.

👉 *Strengthening Rural Development Partnerships: Strategic Interaction with NABARD Leadership* 🌱

A strategic meeting was held with Sh. Gautam Kumar Singh, Chief General Manager (CGM), NABARD Bihar, and Shri Ajay Sahu, General Manager (GM), NABARD Bihar, along with B.S. Gupta, Secretary – SUPPORT, to discuss collaborative approaches for advancing rural development initiatives.

The interaction focused on strengthening partnerships to promote sustainable livelihoods, enhance community empowerment, and support inclusive development at the grassroots level. Discussions highlighted the importance of institutional convergence, effective resource utilization, and scaling impactful interventions to address rural challenges more effectively.

Valuable insights were exchanged on fostering stronger coordination among development stakeholders and building long-term partnerships capable of generating sustainable and meaningful outcomes for rural communities.

This engagement reflects a shared commitment toward strengthening rural development efforts and creating lasting positive change through collaborative action and strategic planning.

 Empowering Rural Communities through Collective Action: Block-Level Event at Daru, Hazaribagh

Under the joint aegis of SUPPORT and MCX India, a one-day Block-Level Event was successfully organized in Akakumba village of Daru Block, Hazaribagh district, aimed at strengthening community participation and promoting sustainable rural development.

The program was graced by the presence of Mr. Harun Rashid, Block Development Officer (BDO), Daru; Mr. Ashish Kumar, Block Welfare Officer (BWO), Daru; Mr. Mahendra Murmu, Mukhiya of Digwar Gram Panchayat; Dr. B. S. Gupta, Secretary – SUPPORT; and Mr. Nishikant, Panchayat Secretary.

The event witnessed enthusiastic participation from more than 100 community members representing six project villages of Digwar Gram Panchayat, reflecting strong local engagement and collective commitment toward development initiatives.

The program focused on raising awareness, encouraging community participation, and fostering dialogue between local leadership and rural communities. Through meaningful interaction and collective discussion, the event promoted collaboration and strengthened grassroots-level empowerment.

Such initiatives play a vital role in building inclusive communities, strengthening local institutions, and creating sustainable pathways for long-term rural development.

♥ A significant step toward community-led development and inclusive rural transformation.
